CODE, AS AMENDED, ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

In September 1953, the East German State Secretariat of Chemistry sent questionnaires to the SAG plants in Leuna, Schkopau (Buna-Werke), Zeitz, Schwarzeide and Espenhain, all of which are to be placed under the Main Administration for Liquid Fuels and the Main Administration for Heavy Chemistry when they are returned to the East German economy on 1 January 1954. The purpose of the questionnaires was to determine what 1954 planned production for the plants should be. The questionnaires were filled out and returned in mid-October 1953. The answers did not specify what quantities of what products could be produced in the plants, as the State Secretariat had requested, but they did provide enough financial information to permit the State Secretariat to establish the following provisory gross profit plans for the enterprises:

Leuna	110 million DME
Schkopau	125 - 130 million DME
Zeitz	about 50 million DME
Schwarzeide	15 - 20 million DME
Espenhain	75 - 80 million DME
